Comp Clows now thinks that the said been has burst. We told our thing the same thing last January, have many times since reiterated view. One-sided trust-breeding worky, which pauperises the constally favored by law, cannot they. And when it collapses, the world greams. It is like a single world greams. It is like a single world gream. It is like a single world gream which death is always a single will dead which fin its end, as in its season, as like a virtuous life.

IN THE MATTER OF PENSIONS.

General E. M. Law, editor of The Bartow Courier-Informant, has the following to say regarding the recent rulings of the State Board of Pensions:

"A ruling of the State Board of Pensions at its meeting on last Thursday is of much importance to veterans who have applied, or who intend to apply, for pensions under the act of the last Legislature which provides that the certificate of the Adjutant of the U. C. V. camp to which the applicant belongs shall be sufficient proof of service.

"The Board of Pensions has very properly ruled that the mere certificate of the Adjutant is not sufficient, and all applications where this mere formal certificate has been relied on have been returned. On this point the Board speaks in the following clear and decided terms:

slow in giving them another opportunity for Statehood, and whether it is not better to flee in the ills they know exist under a Republican territorial government to the apocryphal ills the Republican politicians assure them will come under Democratic government. One would think, to

"The board construes the spirit of the law to require unquestionable proof that the applicant performed faithful service to the Confederacy and that he did not desert. Such proof can only be made by the statements of persons who know of their own knowledge of the service or from official documents and records. The board has ordered the return to the clerks of the courts of applications field under the Act of 1907, in which proof of service was made by the certificate of adjutant, for amendment to conform with the enclosed form."

"The form referred to requires the Adjutant to make oath that 'he knows of his own knowledge and by documentary proof submitted to the camp on application for membership that the said applicant was a soldier or sailor in the service of the Confederate States during the war between the States and did not desert the same and that he is a member in good standing in camp No. — of United Confederate Veterans.'

"The board further rules that 'in all cases where the Adjutant cannot conscientiously make this certificate the board will require the applicant to school the affidavit of two commissioned officer. The Adjutant should have knowledge or proof of applicant's service from salistment to honorable discharge."

"Every veteran should acquiesce cheerfully in this action of the Pension Board. While it may exclude some worthy veterans who are unable to make the required proof of service. It will exclude many who did no service, were never in the Confederate army or navy, and some deserters. The main question to be answered in the granting of any pension by the State should be: was the applicant actually in the service and was he true to his colors to the end?"

A great many persons and a great many cities want something Federal. The persons want postoffices, judge-ships, receiverships, and other offices. The cities usually want public buildings, harbor improvements, etc. Now comes Butte, Montana, with a new Federal idea. It wants a Federal lawn. Some day we shall have people crying for a Federal backyard, or a Federal kitchen garden. There is no end to this longing for something at the expense of Uncle Sam. And thereim lies President Roosevelt's power, not in his statesmanship.

The enforcers of the pure food laws need to get busy: whiskey is said to be going into Georgia—in anticipation of 1908 demands—labeled

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh Cure, manufactured by F. J. Chency & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in cess from 10 drops to a teaspoonful. It acts directly on the blood and muone surfaces of the system. They for one hundred dollars for any case it fails to cure. lars and testimonals.

REPUBLICAN BLUFF.

The Republicans cannot forgive Ok lahoma that her voters gave a Democratic majority, and Secretary Taft advises the voting down of the constitution, mainly on the avowed ground that the wicked Democrats have gerrymandered the new State. With every political close State in the Union a monument to Republican gerrymanders it is hardly seemly for Taft to cast the first stone, even if the Democrats have somewhat favored their own side. The people of Oklahoma must, however, remember that a Republican Congress will be rather slow in giving them another opporis not better to flee in the ills they know exist under a Republican territorial government to the apocryphal ills the Republican politicians assure them will come under Democratic government. One would think, to hear these Republicans talk, that the Democrats will, when in power, try to ruin their own property and create a Democratic desert out of a Republican rose garden.

#### LUNGS THAT ARE STARVED.

It is a fact that most of us are victims of our own lazy respiration and deprive ourselves of oxygen that is so necessary if we would keep our bodies at their highest point of efficiency, says The Delineator for September.

Oxygen is absolutely necessary to the existence of animal life. Man gets oxygen from air breathed into his lungs.

Besides introducing oxygen into the blood, the lungs act as excretory organs, removing undesirable elements from the system at each expiration.

In ordinary or unconscious breathing, only ten to thirteen per cent of the air in the lungs is changed at each breadth, leaving eighty to ninety per cent of the lung capacity filled with state air.

Forced or conscious breathing of pure air ventilates the lungs, driving out the eighty to ninety per cent of stationary or stale air.

All bedroom windows and doors should be wide open during sleep, thus connecting the lungs directly with the pure air of the outside world.

Because a man is in a happy mood is no badge of sainthood. A fellow can be happy when he has done no wrong; and, again, a fellow can be because he wasn't caught in the act.
